

# Your Safety Matters

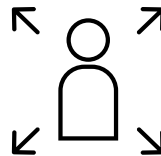

Which is why we're adapting our workspaces and services at The Atomic to offer you a hygienic environment that helps you bring your dreams to life with complete peace of mind.

Here are some measures taken by us to keep our surroundings clean, safe and accessible.

## Frequent Sanitization

In addition to normal cleaning routines, we are cleaning 'high-touch' surfaces, common areas, and objects more frequently.

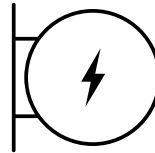

## Professional Distancing

We've de-sensitized common areas by removing seats to ensure that professional and safe distancing is maintained at all times.

## Sanitization Equipment

We've provided complimentary products, like sanitizer dispensers, disposable cutlery, hands-free soap dispensers in the washrooms and across our facility to maintain cleanliness and hygiene.

## Relevant Signages

We've strategically placed signages on distancing and hygiene across our premises as friendly reminders to all occupants.
